How to filter your data 1

How to filter your data

This document briefly explains how to use the data filter syntax.

Column names

If a column name contains any of these special characters `~ () # \ / = > < + - * % & | ^ ' „ []`, you must enclose the column name within square brackets `[]`. If a column name contains right bracket `]` or backslash `\`, escape it with backslash (`\]` or `\\`).
